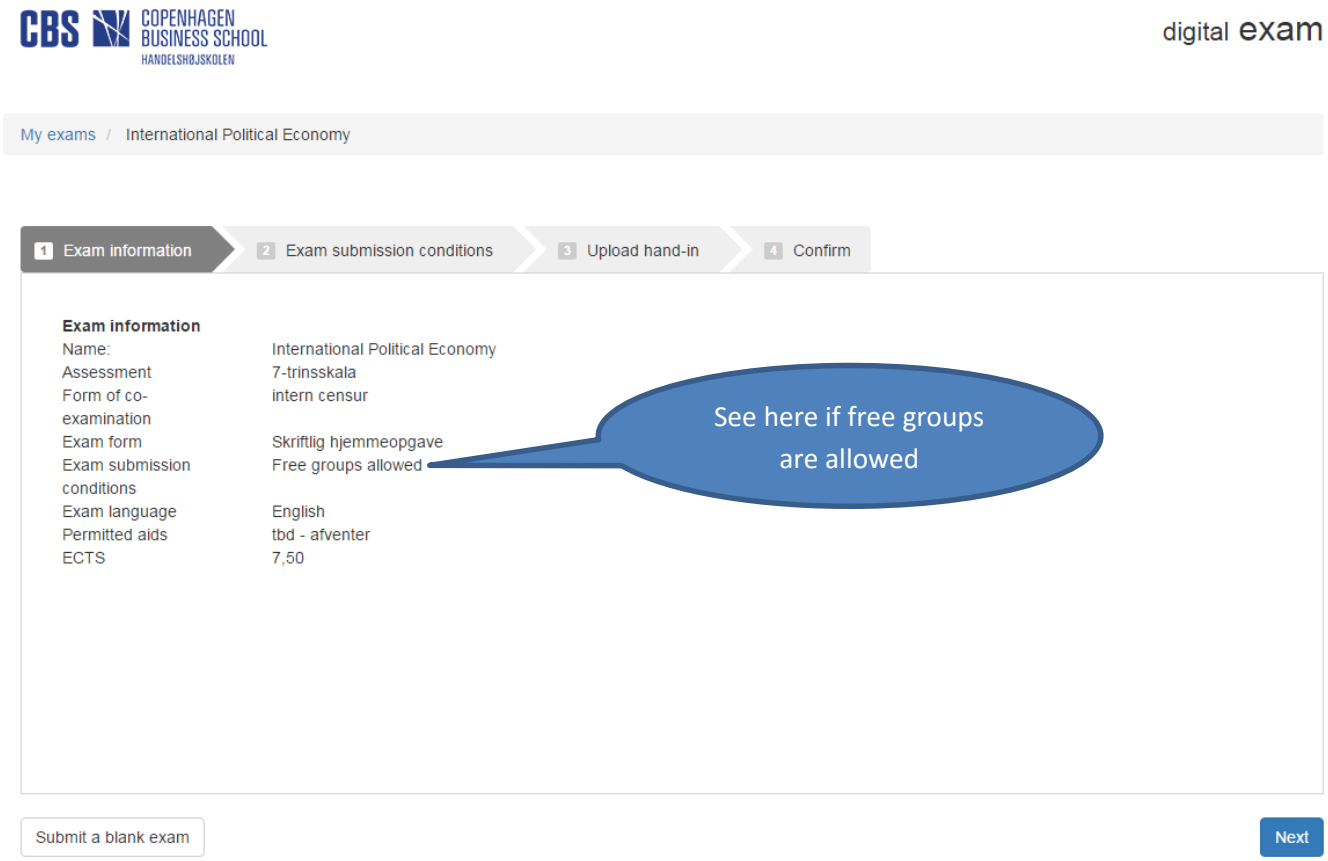
Hand-in – group (free groups)

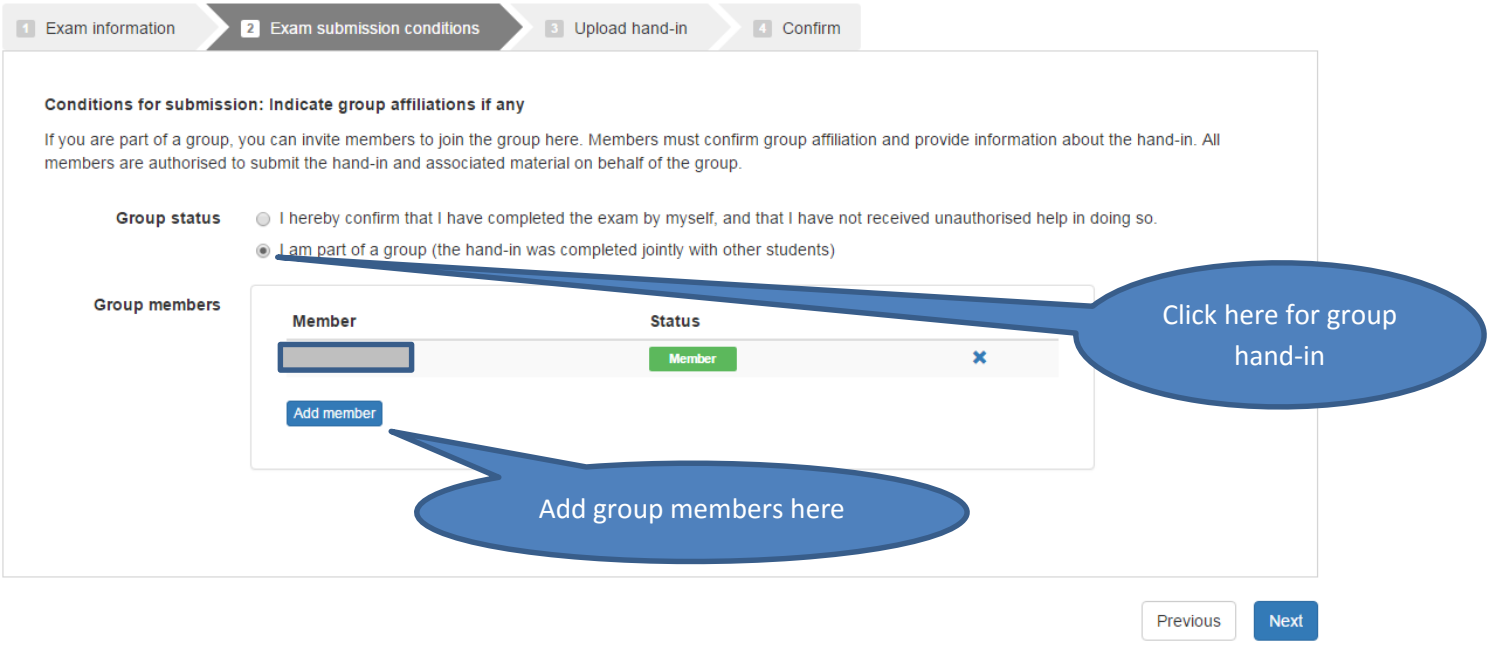
Please notice – only one member of a group has to upload the hand-in. All members of an exam group have access to the hand-in, but only one of you should upload the hand-in.

In “Exam information”, under “Exam submission” you can see whether it is allowed to set up a “free group”. Click Next.

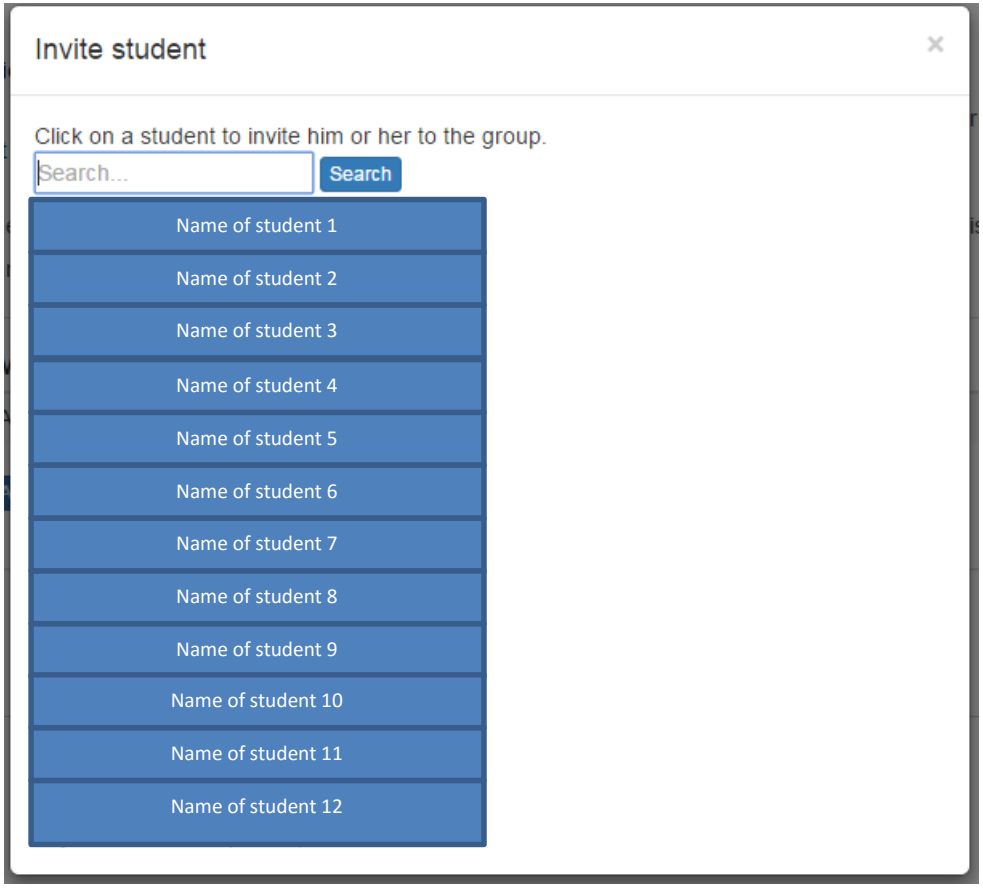


Under ”Exam submission conditions” you select: “I am part of a group” (if the hand-in was completed as a joint effort with fellow students)

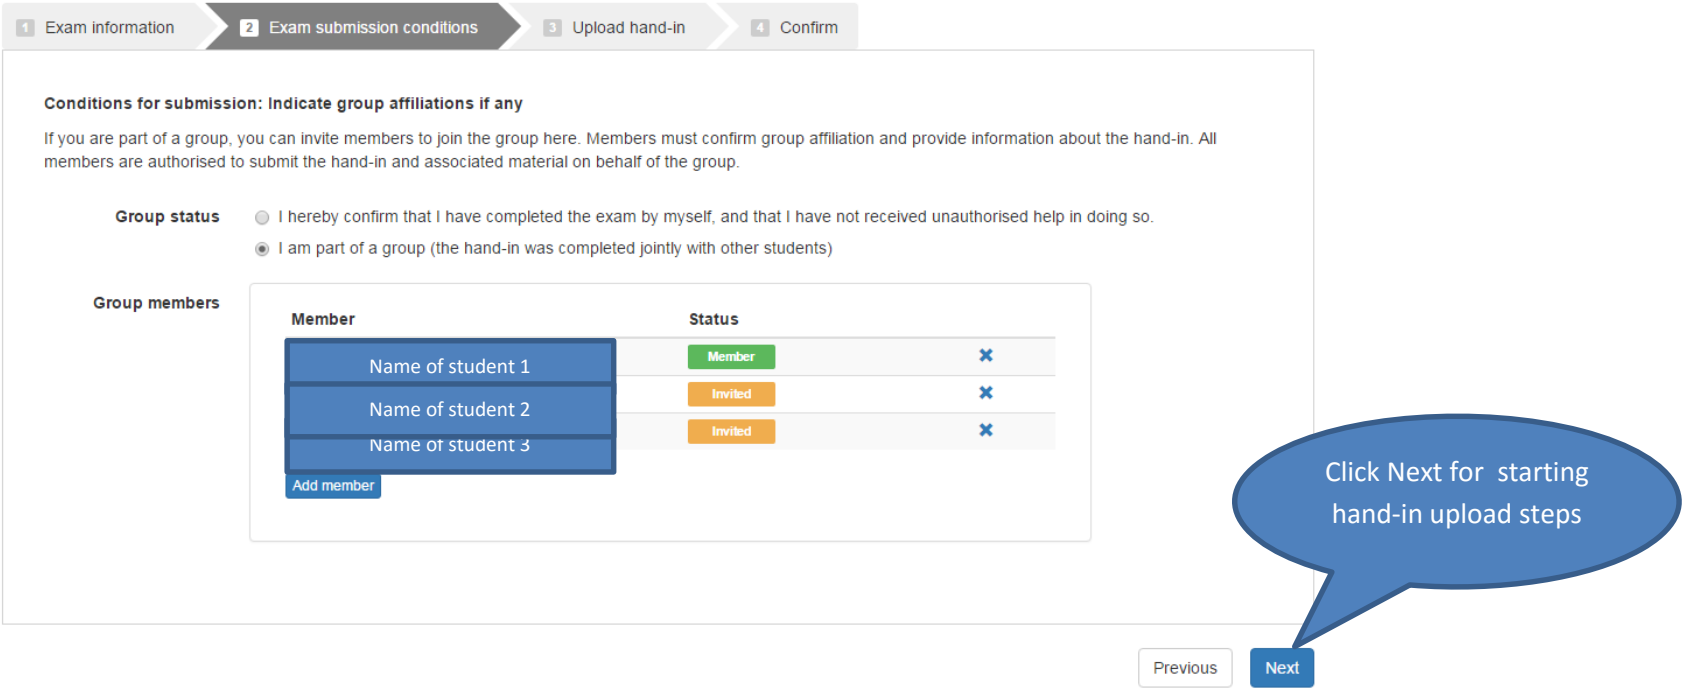
Under “Group members” you note which fellow students you want to hand-in with.



Click on Search and you can see your fellow students and invite them



The added students are now invited to your group, and they will see a group invitation when logging in to Digital Exam. Here they can accept the invitation.

If they deny the invitation, they will disappear from the group. The invited fellow students can't see the group reply until they have accepted the invitation.


When you have added group members, you click Next, and the upload will happen in the usual manner.
